

hybriSpot 12
PCR AUTO

**Fully automatic system,
completely guided by hybriSoft software**

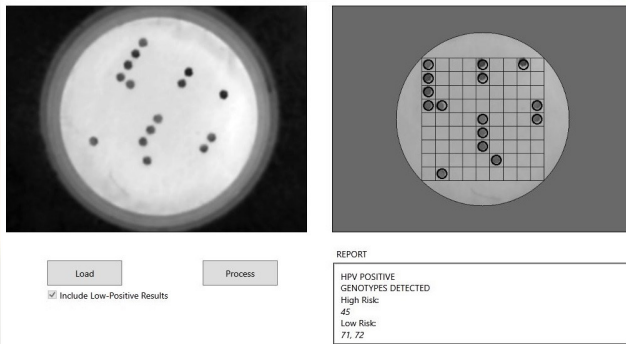

hybriSpot 12

PCR AUTO

- ✓ **Fully automated: AMPLIFICATION, DENATURATION and HYBRIDIZATION**
- ✓ **UV light** for DNA decontamination
- ✓ Extremely **robust** and **compact**
- ✓ **Faster, sensitive** and more **accurate** in diagnosis
- ✓ **Thermostatic** reaction chamber
- ✓ Vacuum **pump control** included
- ✓ Processed samples:
 - Amplification from 1 to 24 samples per run
 - Hybridization from 1 to 12 samples per run
- ✓ **HybriSoft**: Specific **software** developed for **hybriSpot platforms**

- ▶ **Samples administration**
- ▶ Automatic **capture of images**
- ▶ Automatic **analysis** of final arrays
- ▶ **Printed report**
- ▶ **Multitest**
